

Year 4 - Economic Wellbeing

Banks balance

How much money is in an account after money has been put in and taken out

Bank statement

Regular update on the money which has gone in and out of a bank account and shows your bank balance.

Career

A job in one area of work that is undertaken for a long period of time

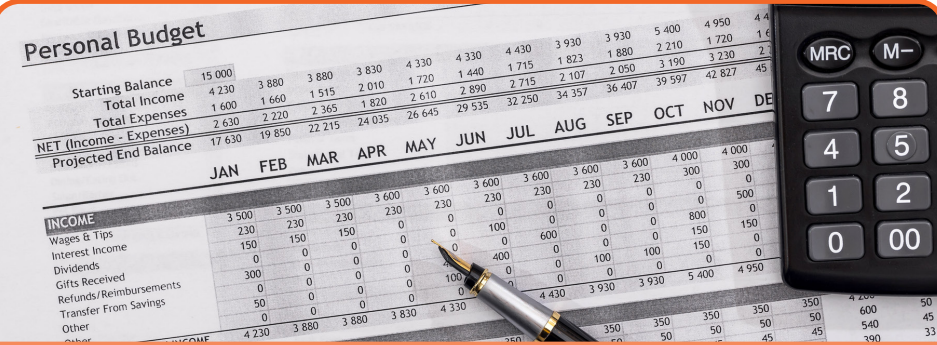

Debit card

A card used to buy things where the money is taken straight from the bank account

People think about different things when deciding if something is good value for money, such as how much it costs, how long it will last for and the impact on the environment.

Key facts

Keeping track of money is important to make sure you have enough money for what you need.

Money can be lost in different ways, such as misplacing it, having it stolen or lending it to someone and not getting it back

Lots of different things can influence the job or career someone chooses.
